Midnight In the Desert

Crystal Gayle

Midnight in the desert, Shooting stars across the sky,
This magical journey will take us on a ride,
Filled with the longing, Searching for the truth,
Will we make it till tomorrow, will the sun shine on you?
Chorus...
Midnight in the desert, and we're listenin', ooooo, we're listenin' to you .....
Midnight in the desert,and there's wisdom in the air,
I've been looking for the answers, all my life I've felt you there.
As the world we live in quickens, are we heeding all the signs?
Have we lost our intuition? Are we running out of time?
Chorus
And we're listenin', oooh, we're listening to you.
listenin' listenin' oooo listenin' listenin' to you, ooo
repeat and fade
