

Wonderland

Kate Ryan

How did you do it
How did you make me fall for you so badly
How did it happen
How come I just gave my heart to you so gladly You are here in my mind
And nothing else than our love really matters
When you look into my eyes
Touch my skin and pull me close
You give me shivers Into your wonderland, I'm gonna lose myself
Never gonna find a better place
Always gonna stay in your embrace
Wonderland I'm under your command Never wanna leave, never wanna leave
Wonderland
Never wanna leave, never wanna leave
Never wanna leave, never wanna leave It's amazing
How you have given life another meaning, yeah
Takes me higher
Words cannot express the way I'm feeling now When I'm here in your arms
Nothing else than our love really matters
When you smile at me like that
Touch my face and pull me close
You give me shivers Into your wonderland, I'm gonna lose myself
Never gonna find a better place
Always gonna stay in your embrace
Wonderland I'm under your command Never wanna leave, never wanna leave
Wonderland
Never wanna leave never wanna leave
Never wanna leave never wanna leave
