

# Kudzu

## Astronautalis

Let's take the long way home  
Break each other's bones  
What your daddy don't know  
Won't put no pox on his soul  
You know  
You haul a heavy load  
Draped in your momma's gold  
Think of how good you'd look if you were a ghost  
Shorty swing my way  
Lock the fucking deadbolt draw the shades  
Got fired on a Friday  
Back on the block the same damn day  
I know we got problems  
I used to be real good at making 'em fade  
But we run out of options  
Fuck I look like bagging groceries at the pick n save  
If this a different age  
And you and I had different names  
We probably wouldn't sweat a single thing  
But hey  
I know you hate this game  
You probably plot your great escape  
To run back to your momma and your daddy  
But dang  
It ain't so simple babe  
You handcuffed to my wrist again  
You wanna keep your head a float you swim or sink  
You gettin' riches ain't you  
Remember when we kids, it's strange  
It all just seems so god damn far away  
From today, hey  
Let's take the long way home  
Break each other's bones  
What your daddy don't know  
Won't put no pox on his soul  
You know  
You haul a heavy load  
Draped in your momma's gold  
Think of how good you'd look if you were  
A ghost

A ghost  
A ghost  
How good you'd look if you were a ghost  
It's like that rush that you get  
When you jump off high shit  
When the drug hits your lips  
Or have unprotected sex  
We all so damn scared  
That we too close to death  
We'll do anything we can  
To cheat the Devil for a breath  
Or feel that life in your chest  
Yeah that pain gives you strength  
So you run till you collapse  
Chasing a fox that you can't catch  
And we like it like that  
Yeah don't you like it like that  
Smiling like Cheshire cat  
You trace your nail marks in my back  
Intoxicated by that  
Dangerous track  
There's something comforting to standing next to  
Edge of forest of black  
Secretly hoping it'll engulf you  
And you'll never look back  
To that person that you were  
Before you walked in my path  
Let's take the long way home  
Break each other's bones  
What your daddy don't know  
Won't put no pox on his soul  
You know  
You haul a heavy load  
Draped in your momma's gold  
Think of how good you'd look if you were  
A ghost  
A ghost  
A ghost  
How good you'd look if you were a ghost
