This Old Flame

Poco

I guess, I should accept the call
But I really don't know what to say
The operator won't let you talk at all
And she said, "You want me to pay?"Oh, well it ain't nothin' new
It fits right with my picture of you
But tonight, you're gonna find out
What these tears are all about'Cause this old flame went out
You never thought you'd be the one
In the darkness now
I think you know, what I'm talkin' about
This old flame went outYou went to get cigarettes
That was last July, you didn't get home yet
And now you expect me to hear you out
You call me collect, there ain't no doubtThis old flame went out
You never thought you'd be the one
In the darkness now
I think you know, what I'm talkin' about
This old flame went outWhat do you mean, how can I do this to you?
Let's not forget who walked out on whoThis old flame went out
You never thought you'd be the one
In the darkness now
I think you know, what I'm talkin' about
This old flame went outI think you know, what I'm talkin' about
This old flame went out
