

Love Explosion

Weezer

Take a listen around you
All the people that crowd around in your house
They be wantin'
To kill you in your sleepTake a load off and bow down
To the others who love to call you their names
They be wantin'
To kill you in your sleepAnd all the bull that people sling
(Love explosion)
It doesn't matter what they say
(Love explosion)So jump out, jump out
Get your groove on
This one is for you
So c'mon
Get out the house girl
And give me a kissAnd all the bull that people sling
(Love explosion)
It doesn't matter what they say
(Love explosion)So jump out, jump out
Get your groove on
This one is for you
So c'mon
Get out the house girl
And give me a kissTake a load off and bow down
To the others who love to call you their names
They love to call you their names
They love to call you their names
