Livin' On

Son Volt

Without time there's no devotion
Without you there's only time
Making the most situations
Living on love that's living blind[Chorus]
You say you're no affected
You always read between the lines
Not even happiness falling down
Can ever change your mindThe level's rising on the river
We just go where the current goes
There's no sense in a heartache
A condition that's always known[Chorus]There's a reckless side of tradition
I push to the top having its way
Conventional wisdom doesn't offer
Burning answers on display[Chorus]Not even happiness falling down
Can ever change your mind
