Wrap Myself Around You

Kill Hannah

Advisory - the following lyrics contain explicit language:

I took you up against the wall
On the rooftop we climbed through broken windows
It's how alive you make me feel
Shot a photograph to capture you and prove that this is realI wanna wrap myself around you
So you can never get awayAnd I don't want to let you go
(To let you go)
In this factory it's cranks and shafts that shatter glass
From the streets a massive noise
Tanks and atom bombs explode but I can only hear your voiceI wanna wrap myself around you
So you can never get away
It doesn't matter what they do to me now
'Cause I will never sleep again, again, againAll those nights we stayed awake
Up on the fire escape
And our fear of heights still all the things we did
And all the things we say, ohI wanna wrap myself around you
(I wanna wrap myself around you)
So you can never get away
(So you can never get away)It doesn't matter what they do to me now
I wanna wrap myself around you
So you can never get away
