

# Mirrors

## Havayoth

I am one with the ones who bring the plague  
I control their universe  
Through the dark, beyond this world I am  
In the dominions of thine  
Consume the earth, the night will never end  
As I see through the secrets of all time  
The funerals will never end

I will summon thee  
Forces of darkness and ancient might  
IÃ,Â'll bring you forth, into eternal impure night  
I will summon thee  
Who the legions of light will attack  
Step right through my mirrors of black

As the flames from the past start to rise  
And the sun drowns in blood  
As my spirit burn the world of lies  
The vision has come true

I will summon thee  
Forces of darkness and ancient might  
IÃ,Â'll bring you forth, into eternal impure night  
I will summon thee  
Who the legions of light will attack  
Step right through my mirrors of black
