Spread a Little Love Around

Ricky Skaggs

Sometimes this crazy world can make us all feel bad
I sit and watch the news and just get mad
We need to stop and smell the roses in the ground
So get out today, you spread a little love aroundTalk to a neighbor, volunteer a favor
Help out a stranger when his car's broke down
Give your wife a kissin', when your kids talk, listen
It makes a lovely sound, spread a little love aroundYou know it don't take much to make somebody's day
A kind word of tender touch goes a long way
We can change the whole world if we start in our hometown
So get out today, you spread a little love aroundTell your mom you love her, bear hug your brother
Treat your sister to a night out on the town
Throw the ball for rover, wrestle in the clover
Put a smile on that old hound, spread a little love around
