

I Don't Know How To Love

The Drums

When you're alone
And I'm alone
I could touch your hair three months ago
But now it makes you so upset Why you say I don't know how to love
I simply don't understand my life You can say you don't know
But I remember football in the snow Everybody's gone home
Why don't you love me anymore Why you say I don't know how to love
I simply don't understand my life Why you say I don't know how to love
I simply don't understand my life Why you say I don't know how to love
I simply don't understand my life
