Terrible Funk

Breakbeat Era

Slide on in, slide on in between
Liquid base, babe, you're just a drop in the ocean
I look up, look up and lose my step
Watch you take your place in the sunDon't be shy, we all the same on the inside
Liquid base, babe, I'm on your mind
Slide on in, slide on in between
Liquid base, babe, I'm on your mindDrive to drive, man, they come from nowhere
Big black suits, no number on their jackets
Holy cow, no, I don't tell them nothing
I'm on your sideDon't go out, you'd think I'd learn my lesson
Day to day we fight a losing battle
Shine out shine, it's on the surface, baby
On the other sideYes, I see you, day by day
Don't go out, feel so strange
My own time, yeah, run to run
Drink so deep, yeah, I'm deaf and dumbSlide on in, slide on in between
Liquid base, babe, I'm on your mind
I look up, look up and lose my step
Watch you take your place in the sunSlide on in, slide on in between
Liquid base, babe, you're just a drop in the ocean
I look up, look up and lose my step
Watch you take your place in the sunDon't be shy, we all the same on the inside
Liquid base, babe, I'm on your mind
Slide on in, slide on in between
Liquid base, babe, I'm on your mindYes, I see you, day by day
Don't go out, feel so strange
My own time, yeah, run to run
Drink so deep, yeah, I'm deaf and dumbSlide on in, slide on in between
Liquid base, babe, you're just a drop in the ocean
I look up, look up and lose my step
Watch you take your place in the sunDon't be shy, we all the same on the inside
Liquid base, babe I'm on your mind
Slide on in, slide on in between
Liquid base, babe, base, babe
Base, babe
