## Breakbeat Era

Slide on in, slide on in between  
Liquid base, babe, you're just a drop in the ocean  
I look up, look up and lose my step  
Watch you take your place in the sunDon't be shy, we all the same on the inside  
Liquid base, babe, I'm on your mind  
Slide on in, slide on in between  
Liquid base, babe, I'm on your mindDrive to drive, man, they come from nowhere  
Big black suits, no number on their jackets  
Holy cow, no, I don't tell them nothing  
I'm on your sideDon't go out, you'd think I'd learn my lesson  
Day to day we fight a losing battle  
Shine out shine, it's on the surface, baby  
On the other sideYes, I see you, day by day  
Don't go out, feel so strange  
My own time, yeah, run to run  
Drink so deep, yeah, I'm deaf and dumbSlide on in, slide on in between  
Liquid base, babe, I'm on your mind  
I look up, look up and lose my step  
Watch you take your place in the sunSlide on in, slide on in between  
Liquid base, babe, you're just a drop in the ocean  
I look up, look up and lose my step  
Watch you take your place in the sunDon't be shy, we all the same on the inside  
Liquid base, babe, I'm on your mind  
Slide on in, slide on in between  
Liquid base, babe, I'm on your mindYes, I see you, day by day  
Don't go out, feel so strange  
My own time, yeah, run to run  
Drink so deep, yeah, I'm deaf and dumbSlide on in, slide on in between  
Liquid base, babe, you're just a drop in the ocean  
I look up, look up and lose my step  
Watch you take your place in the sunDon't be shy, we all the same on the inside  
Liquid base, babe I'm on your mind  
Slide on in, slide on in between  
Liquid base, babe, base, babe  
Base, babe
