Blue Tile Fever

Fu Manchu

Takin' the next run
Rollin' right by
Takin' the last oneSo look the other way That's what we heard 'em say
So look the other way That's what we heard 'em say
Blue Til.e Fever
Blue Til.e FeverIt's brand new, like I told you
No one's seen, the things that they do
Hear the words, and know what they know
The crowd splits, wherever they goIt's all brand new, just like I told you
It's all brand new, just like I told youA grind back at the far end
Signs posted for all of you
Things were alright just when
Now here's what we're gonna doSo look the other way That's what we heard 'em say
So look the other way That's what we heard 'em say
Blue Til.e Fever
Blue Til.e Fever
