My School

Galactic Cowboys

My mind is like a video of memories
But I don't know if I'm crazy
In the classroom I would pray
I wouldn't have to read that day, I was lazyPeople thought but didn't say
I turn the page of red and gray, I'm bolder
The golden boys who got the girls
Are going bald with no more curls, they're olderWell, the moon is full tonight and I'm going back
Tell me where you are tonight
'Cause I'm going back to my school
Going back to my schoolTeachers smirked but never knew
What I had inside and when I'd grow I'd show them
But I realized the other day
It wouldn't matter what they say, I'd know whenWell, the moon is full tonight and I'm going back
Tell me where you are tonight
'Cause I'm going back to my school
Going back to my schoolYou locked me up inside
My feelings I deniedWell, the moon is full tonight and I'm going back
Tell me where you are tonight
'Cause I'm going back to my school
Going back to my schoolWell, the moon is full tonight and I'm going back
Tell me where you are tonight
'Cause I'm going back to my school
Going back to my schoolTell me where you are, oh
Tell me where you are tonight, ohTell me where you are tonight
