

# Can't Be With You Tonight

## Grand Funk Railroad

I can't be with you tonight  
It couldn't be right  
And the further from sight the better

I can't be with you tonight  
And there ain't no use pretendin'  
'Cause it couldn't be right  
At least not from this end girl  
And the further from sight, the better

Girl, there's somethin' that won't let me be  
And it's tryin' to hide inside of me  
There are some things that you'll never see

Never see, baby ever  
It's not that I'm so clever  
It's just that it's better

I can't be with you tonight  
And there ain't no use pretendin'  
'Cause it couldn't be right  
At least not from this end girl  
And the further from sight, the better

Get this feeling 'cause I never knew  
Girl, what you had deep inside of you  
Now it looks as though I was a fool

'Cause it was me not you baby  
You had to do what you had to do baby  
Now it looks like we're through baby

I can't be with you tonight

Can't be with you tonight  
I can't be with you  
It couldn't be right  
I can't be with you  
The further from sight, the better

I can't be with you tonight  
And there ain't no use pretendin'  
'Cause it couldn't be right  
At least not from this end girl  
And the further from sight the better

I can't be with you tonight  
It couldn't be right  
The further from sight, the better
