What Do U Want

Cassie

Let's goI got a crew in every single nation
You didn't know when you started altercation
Boy, u caused me to much aggravation
My homies want to sit down and have a conversationWhat do u want from me?
How can I give it to u?
What do u want me to do?
What do u want from me?The Devil gave this sweet little cupcake
We got Brooklyn and Harlem time to educate
You gotta little pretty, cute foreign Missy
Boy, it's your turn to shake, shake, shake, shake, shakeWhat do u want from me?
How can I give it to u?
What do u want me to do?
What do u want from me?I'm gonna make you cry
I'm gonna make you cry
I'm gonna make you, make youI'ma make sure you get it good
Because you had
This thing coming
Like you knew you wouldYou were my time, my money
And my body too
Give me one good reason
I should give it to youLet's go, let's go, let's go, let's goWhat do u want from me?
How can I give it to u?
What do u want me to do?
What do u want from me?What do u want from me?
How can I give it to u?
What do u want me to do?
What do u want from me?
