

# Earth to Heaven

## Esperanza Spalding

Thought and strength and breath  
Ain't much else left  
Better have your fill before you know  
It's over  
Say the natural laws  
And if the heavenly goddess should call  
Is it heaven at all?  
Sober These poor drunks don't know  
Money won't flow  
On the other side, they're sure to go  
Withdrawing  
From the need to achieve  
Be careful what you believe in strong  
Before you care it on  
Over There are no perfect amends here  
You get to just keep on getting there, getting there  
There's no promise or test here  
You get to just keep on getting there, getting there (Soldier)  
There's no virgins or saints here  
You get to just keep on getting there, getting there  
All the children and evil  
Are even here just getting there  
Warm hands cross on their  
Shoulders Kings die ringed in gold  
Slaves die consoled  
On the other that makes reward  
Is better  
Like a pearly resort  
Except without report from hell  
How on Earth can you tell? Burn or charge or hate  
Judgement debate  
How to curse a sin and compensate  
Their burden  
Of upholding the law  
But if the heavenly boss turns out  
To be ruling without  
Order All legacies end here  
You get to just keep on getting there, getting there  
There's no promise or test here

You get to just keep on getting there, getting there  
There's no virgins or saints here  
You get to just keep on getting there  
All the winds and eagles (?)  
Crossing even here (?)  
They come to just keep on getting there  
State man lost on their (?)  
Borders
