Polestar

Slide Five

You and I
Northern lights
You were wrong
I saw the polestar
And knew that
England
I thought you were right
Walking me home in that icy cold night
You and I
Northern lights
You were wrong
I saw the polestar
And knew that
England
I thought you were right
Walking me home in that icy cold night
England
I thought you were right
Hiding from smog in the Newcastle light
I was wrong
I was wrong
