

There It Is

Ginuwine

Said I work my fingers down to the bone, yeah
I put it down from 9 to 5 so you should know
You wanna know what else?
And I bust my ass so you can live good, yes I do, girl
Now all I want you to do is what you should there it is See there it is, that ungrateful shit
There you go again, complanin'
And what your aim is
I don't know but I'm I'm not doing this shit for nothing
I pay the car note, light bill, house note
What you think, this shit's for nothing?
You're not workin' so what more you want? Listen
I do my best to give you what you need
It seems that
The harder that I work, the less you see
Ooh baby Who wouldn't want the life you lead?
Just think about it
Living the good life, yeah
Practically scot-free, oh oh oh oh yeah See there it is, that ungrateful shit
There you again, bein' worse, um yeah
Like you earned somethin' round here
But let's be clear I'm not doing this shit for nothing
I pay the car note, light bill, house note
What you think, this shit's for nothing?
You're not workin' so what more you want? You got two seconds, pack your shit and get on outta here
Gotta go, gotta go baby
You don't appreciate what a man like me is about
No you don't And you know I'm workin' 9 to 5
Workin' hard everyday baby
Even put my name
Even signed my name
Down for some overtime, yeah See there you go
Tryin' to run the show
Ooo, would you pay my car note?
Pay my light bill?
Pay my bills? I'm not doing this shit for nothing
I pay the car note, light bill, house note
What you think, this shit's for nothing?
You're not workin' so what more you want? I'm not doing this shit for nothing
I pay the car note, light bill, house note

What you think, this shit's for nothing?
You're not workin' so what more you want? I'm not doing this shit for nothing
I pay the car note, light bill, house note
What you think, this shit's for nothing?
You're not workin' so what more you want?
