

# Hideaway

Tessanne Chin

You don't know what you do when you do it to me  
I can't save you from yourself  
But I can offer you a new start  
But I can take you away from your fears  
But I can bite the lips of your broken heart  
Do you want me to take you home  
And show you what my love can do  
Do you want to go to heaven with my arms around you  
You take my breath away if only you would say  
It's only you and I and that's the way we'll stay  
I'll take you there to my secret hideaway  
So in love with you but I feel you know the truth  
Every time you catch me a-stare you know I stare at you  
You get so close to me that I can almost taste your breathe  
I do want to go to heaven with my arms around you  
You take my breath away if only you would say  
It's only you and I and that's the way we'll stay  
I'll take you there to my secret hideaway  
I'll take you there to my secret hideaway  
No other man can make mi gwaan like you  
I wouldn't leff you baby ever even if I could  
Mi nah go botha front you make mi wanna hug  
And you can put the blood, true  
You got the goods, I got the tune  
I sing this song just to prove  
I wanna have your baby  
I want every part of you  
The good. the bad, the old and the new  
Tell me what I say  
Baby boy I do I do want to, take you home and how you want my love can do  
You take my breath away if only  
you would say  
It's only you and I and that the way we'll stay  
I'll take you there to my secret hideaway  
I'll take you there to my secret hideaway
