

# Identity

## Burning Spear

So they want I to change my identity  
Musically, musically, musically  
So they want I to change my identity  
Musically, musically, musically  
This ya music race  
Commercial race  
Political race  
This ya music race  
Commercial race  
Political race  
So they want I to change my identity  
Musically, musically, musically  
So they want I to change my identity  
Musically, musically, musically  
My identity, my identity  
Jah work must be done  
Work in the East  
Work in the West  
Work in the North  
Work in the South  
Work over there  
We work over here  
Work everywhere  
Work over there  
We work over here  
Work everywhere  
So they want I to change my identity  
Musically, musically, musically  
So they want I to change my identity  
Musically, musically, musically  
My identity, my identity  
Who will stand up for the people  
Musically, musically, musically  
Who will stand up for the people  
Musically, musically, musically  
So they want I to change my identity

Musically, musically, musically  
My identity, my identity  
Musically, musically, musically  
The people is for the music  
The music is for the people  
Musically, musically, musically  
So they want I to change my identity  
Musically, musically, musically  
So they want I to change my identity  
Musically, musically, musically  
My identity, my identity
