

# Stay Bruised

Nikki Sudden

So many places that I've been  
So many things that I've seen  
So many people that I've known in my life  
Some they lived and some they died  
But you stay constant through it all  
Always faithful an' always true  
And there's things that we should choose  
If we're not to stay confused  
But despite this I say to you  
Stay beautiful, stay forever true.Oh! Stay bruised, stay beautiful  
All through your life  
Stay bruised, stay forever beautiful  
Things'll work out fine.  
So many places that you've been  
So many things you think you've seen  
So many people have passed through your life  
Some you've loved and some they cried  
But despite this and all these things  
I still wish you the best in everything  
And there's habits that I could lose  
And there's things that you should choose  
But despite this I say to you  
Stay gorgeous, stay forever true.Stay bruised, stay beautiful  
All through your life  
Oh! Stay bruised, stay forever beautiful  
You'll do alright.  
Yea  
Stay bruised, stay beautiful  
All through your life  
Stay bruised, stay forever beautiful  
Y'know things, they'll work out fine.Stay bruised, stay forever beautiful  
Each and every night  
Oh! Stay bruised, stay beautiful  
You're doin' fine.
