You Win Again

Glen Campbell

(What can I do you win again)
The news is out all over town
That you've been seen out runnin' round
Now I know that I should leave
But then I just can't go you win againThis heart of mine could never see
What everybody knew but me
Lord, just trusting you was my great sin
What can I do you win again
(What can I do you win again)I'm so sorry for your victim now
For soon his head like mine will bow
Oh he'll give his heart but all in vain
And someday say you win againYou have no heart, you have no shame
You take true love and give the blame
But I guess that I should not complain
I love you still you won again
