

# This Time

## Freddy Mullins

This time I'm not coming back  
And this time that's true  
And this time I'm killing myself  
To kill you too  
This time I'm headed out West  
To find a life of mine  
And this time each of these miles  
Feel like our goodbyesWith each step I take I fall more away  
From everything I felt for  
And knowing that I should have stayedThis time I wonder why  
I said the things I did  
And this time is loneliness with you too  
This time I'm not coming back  
And this time that's true  
And this time I'm killing myself  
To kill you tooWith each step I take I fall more away  
From everything I felt for  
And knowing that I should have stayed
