

Descend

Feeder

Sitting back I only wish
Today will turn out fine
And wash away the stain
The poison in my eyes What do you recommend
I feel my life descending
I'm falling out of reach
Catch me as I bleed again I'm not insane
Can't reach the pain If I could be all by myself
I could be me
If you could see, live with my pain
The thoughts that I keep I hate the way they are
They're patronizing thoughts
Trying to get inside my head
Ask the questions I have read But one thing makes it hard
Feel so fragile as I cry
So confused yet so alive
So abused the system lied
You lied If I could be all by myself
I could be me
If you could see, live with my pain
The thoughts that I keep, yeah, yeah Hands appeared around my neck
Felt so hard to breathe I stared
As my focus turned to haze
I could see them If I could be all by myself
I could be free
If they could see, live with my pain
The thoughts that I keep, yeah, yeah
Yeah, yeah Descend
