

# Seizure

## Malevolent Creation

Convulse, twisted  
Falling to the ground  
Saliva flowing free  
tasting, choking  
Swallowed your tongue  
Eyes roll back in your head Frantic twitching  
Multiple spasms  
Legs begin to buckle  
Face blue, can't breathe  
Trying to cry out  
Your efforts are useless  
Hacking vomit  
want to be free  
Just don't want to be seen Convulse Consuming your pride  
cursed by this disease  
Those around you panic  
Onlookers start to freeze Living in fear  
Tearing your soul  
No cure for this pain  
This is your hell  
Given at birth  
Symptoms take course  
Seizure taking over Consuming  
Convulse
