

Midas (Ben Pearce Re-Edit) (feat. Holly Walker)

Maribou State

If you love me enough
Then give me love, uh baby
Who is right there in front of me
Screaming loud, I didn't wanted to see??? his eyes crush down on me
Trying to use me up but I never let him touch
If you love me enough
You wanna chew me up,
But I'm never gonna lose the love So I cut loose violently
But when you name your pranks
It only hides that
I never believed what you sought to me
It's wrong I know, it's wrong, I know it's wrong
Oh, here I go, give you love
But if I were, you're only frightened
It's real love
You wanna chew me up,
But I'm never gonna lose the love
It's real love
It might be a bit direct
To define me
It might down the down
To entice me???
It might be the reason I still left
Instead of mine, instead of mine, instead of mine
If you wanna stay mine
You wanna chew me up,
But I'm never gonna lose the love
It's real love
But if I were, you're only frightened
Make love, make love
