

Magic Moment

The Hamlins

I feel that magic moment, when I hold you in my arms
I wish that it could always be, but I know you've got to go
Then I will wait until you're here again, remember the things from now and then
Even if you're a hundred years away, I'll be waiting till that day
That day, that day, that day... [fade]
Magic moment, Magic moment
Magic moment, Magic moment
Magic moment, Magic moment

I feel that magic moment, when I hold you in my arms
I wish that it could always be, but I know you've got to go
Then I will wait until you're here again, remember the things from now and then
Even if you're a hundred years away, I'll be waiting till that day
That day, that day, that day... [fade]
Magic moment, Magic moment
Magic moment, Magic moment
