

Why Do I Feel It?

P.J. Pacifico

Why do I feel it?

How will I know?

When will I get the opportunity to let it all show? Strange how you've become one

I hold you up in my sun, just for fun

Strange how I can say hello, anyway

Now may not be right

Oh well, alright

CHORUS

So why do I feel it?

How will I know?

When will I get the opportunity to let it all show?

Why do I feel it?

I can't pretend to hold you inside

With all that's left again

Focus on the now somehow

It'll come to you with whatever you do

Oh wow

Is what I used to say when I saw you in your light through my dark, scarred night

Welcome to my place, you like it here

I can see it on your face

CHORUS

Take a minute, take a while

Make a little smile

This is a lesson, I'm just guessin'

Time to reconcile

CHORUS

Now I feel it and now I know
