Gammadion Seed

Skyclad

The devil's circus came to town
We watched the freaks arrive in mases
When they paraded through our streets
We turned a blind eye as they passedSafe in the comfort of our homes
We all forget the need to fear
This is the new new Jerusalem
And it could never happenHear the cries as freedom dies
The Gods of war have woken
A Catherine wheel of fire and steel
The death machine in motionThe Gammadion Seed
The Gammadion Seed
The Gammadion Seed
The Gammadion SeedThe Gammadion Seed, draw the curtains, live in fear
The Gammadion Seed, watch your neighbors disappear
The Gammadion Seed, if you're too slow to realize
The Gammadion Seed, then Gammadion will riseFive years pass by unnoticed change
Their glamor has us in it's grasp
But now the walls have eyes and ears
Questions too dangerous to askNew state controlled T.V. and press
For reasons suddenly unclear
This is the European dream
So nothing bad can happenHear the cries as freedom dies
The Gods of war have woken
A Catherine Wheel of fire and steel
The death machine in motionNow the first among equals are chosen at birth
Your outward appearance is all that you're worth
They came for the black man and then for the Jew
They've done with the gypsies all that leaves is youBehind the painted greasepaint smiles
Hide faces rarely known to grin
Men who will feed you to the lions
For having different thoughts or skinAnd when we realize that we've made
A state to last a thousand years
Our pleas for help will not be heard
Because there's no-one left toHear the cries as freedom dies
The Gods of war have woken
A Catherine Wheel of fire and steel
The death machine in motionThe Gammadion Seed
The Gammadion Seed
The Gammadion Seed

The Gammadion SeedThe Gammadion Seed, draw the curtains, live in fear
The Gammadion Seed, watch your neighbors disappear
The Gammadion Seed, if you're too slow to realize
The Gammadion Seed, then Gammadion will rise
