

# Body Language

## The Spinners

Body language  
Oh, yeah  
(Yeah, yeah)  
Oh, yeah  
(Yeah, yeah)  
I see what I need to do  
Yeah  
(Yeah, yeah)  
Oh, yeah  
(Yeah, yeah)  
I see you watching  
Tell me is  
Something you like, like  
'Cause I feel you eyes  
As they undress me  
No, don't you stop it  
Love it with ya bad attitude, tude  
'Cause I'm in the mood  
Baby, impress me  
Let me follow your lead  
Baby, come on control me  
Come over take on me  
Take me  
If you're in it for real  
Go ahead, put it on me  
I know that you want me  
So take me  
Read my body language  
I do what you like, like  
So prove that you're right, right  
(Control me)  
Read my body language  
I do what you like, like  
Come into my spotlight  
I got what ya need  
(Need, need, need, need, need)  
I got what ya need  
(Need, need, need, need, need)  
Boy, whatcha waiting for?

Come and take control over me, me  
Show authority  
'Cause I am looking for a boss type  
Someone to fulfill all my needs, needs  
So, give me a pieces of your guidance  
Let me follow your lead  
Baby, come on control me  
Come over take on me  
Take me  
If you're in it for real  
Go ahead, put it on me  
I know that you want me  
So take me  
Read my body language  
I do what you like, like  
So prove that you're right, right  
(Control me)  
Read my body language  
I do what you like, like  
Come into my spotlight  
I got what ya need  
(Need, need, need, need, need)  
I got what ya need  
(Need, need, need, need, need)  
Check out  
Chillin' in the back of the club tonight  
Make kin between us only right?  
But, keep dancin' show me your step  
And go 'head speed it up like it  
Get in the left lane  
Up in the jet plane  
Fuel about a mill, mill  
From Paris to Beverly Hills  
We that ill  
(That's right)  
Lay my eyes on a sassy pearl  
Heidi Montag  
Yeah, that's my girl  
Read my body language  
I do what you like, like  
So prove that you're right, right  
(Control me)  
Read my body language  
I do what you like, like  
Come into my spotlight

I got what you need  
Read my body language  
I do what you like, like  
So prove that your right, right  
(Control me)  
Read my body language  
I do what you like, like  
Come into my spotlight  
I got what ya need  
(Need, need, need, need, need)  
I got what ya need  
(Need, need, need, need, need)  
I got what ya need
