Thoughts

Spock's Beard

Thoughts are thinking
Thoughts are coming
Thoughts are screaming
Thoughts keep comingThoughts are coming
Thoughts are coming downThoughts are thinking
Thunk from knowing
Thoughts repeatingHarm is showing
Thoughts forever
Keep me going downI thought my time was almost done
I thought I knew which way to run
I thought of how this beganI thought of where to go for lunch
I thought I'd give her what she wants
I thought the dream makes the manBats are crawling on my skin
I hear blood letting thoughts beginning now
The more I try to not give in
The more I think my thoughts are winning nowThoughts are thinking
Thoughts are coming
Thoughts are screaming
Thoughts keep comingThoughts are coming
Thoughts are coming downI thought, oh man, this gig is long
I thought my drink was much too strong
I thought he spoke much too fastI thought they make me sick
I thought please, death come quick
I thought it's too good to lastOur eyes are one, I tunnel in
I hear pathetic thoughts beginning nowThoughts are thinking
Thoughts are coming
Thoughts are screaming
Thoughts keep comingThe more I try to not give in
The more I think my thoughts are winning nowThoughts are thinking
Thoughts are coming
Thoughts are screaming
Thoughts keep comingThoughts are coming
Thoughts are coming downThoughts are thinking
Thunk from knowing
Thoughts repeatingHarm is showing
Thoughts forever
Keep me going downThoughts are like
Black ravens in the sky
Thoughts will be forever floating by

Why?I thought at last my love at last
I thought let's go out and get trashed
I thought let's break what we plannedI thought we punish for the crime
I thought we're running out of time
I thought the dream makes the manBats are crawling on my skin
I hear blood letting thoughts beginning nowThoughts are thinking
Thoughts are coming
Thoughts are screaming
Thoughts keep comingThoughts are coming
Thoughts are coming downThoughts are thinking
Thunk from knowing
Thoughts repeatingHarm is showing
[Incomprehensible]Thoughts are screaming
Thoughts are coming
Thoughts forever will keep
Coming
