Our Last Night (Summer Song)

Stellar Road

i'm walking buzzed
through the town of city lights
i'm with my two ladies
one is funny one is fine
hearing people scream
you know i feel so fresh so clean
this is our last night
come and dance with me tonight

what a wicked summer
we're cruising like no other
you know they're buzzing about me
this is our last night
come and dance with me tonight

we're hitting all the bars
we're driving all the fancy cars
cheek to cheek this conversation
trying to find just who we are
you know i won't die happy
unless i get a little little little bit of your body
this is our last night
come and dance with me tonight

it's getting hot in here
let's get incinerated
i'm already dead
i feel so liberated
crawling out the back
people following my lead

this is our last night

come and dance with me tonight
