Noctambulant

Immortal

Music: Abbath
Lyrics: Demonaz
Shadowed you fall
Iced soul in the shivering sphere
Bestial sound of wintercall
Bitter cold comes whispering
Noctambulance spread its wings
Snowtombed darkness circling
Demons claws in wind
Everlasting souls on ice
Cast for the nebular worlds
Demons of endless time
In the uplifting aurora borealis of cold
A trinity of might is born
Uphead us masters of demons roar
By glacial uttermess we view your spirits
Windswept forever the northerly hemi-
sphere
Noctambulant
Frozened in the wintergate
Shadowed you fall
Iced soul in the shivering sphere
Bestial sound of wintercall
Bitter cold comes whispering
Noctambulance spread its wings
Rule the everlasting souls on ice
Cast for the nebular worlds
Demons of endless time
In the uplifting aurora borealis of cold
A trinity of might is born
Uphead us masters of demons roar
By glacial uttermess we view your spirits
Windswept forever the northerly hemi-
sphere
