

Under Siege

Sepultura

[incomprehensible]Religion domain is all I see
Suffocate the scum with mediocrity
Lying and changing your fate
Anno domini ends misery[incomprehensible]Holy wars unleashing bloody raids
The sacred earth without a face
Consumed by murderous sinners
Psychotic leader
Insane, insane, insane, insaneLiving in a dying age
Persecute the human race
Triumph of death in the wasteland
Blood signs your epitaphReligion domain is all I see
Suffocate the scum with mediocrity
Lying and changing your fate
Anno domini ends misery
