What I Said

The Banery

Okay here we go
Gather all around you don't wanna miss this show
If you don't know it's about
To get serious

My energy can make you delirious
Take a chance if you're curious
Follow my lead up outta your seat
We're about to P-A-R-T-Y

Y'all ain't seen nothing like this
Ultimate non-stop excitement
My fire technique is about to
Blow your mind

It's curtain call the stage is set
Spotlights on you ain't seen
Nothing yet
This moment is something
That you won't forget
I know you won't because

I'm saying that I'm something
You gotta see right now
It's the only place you gon'
Wanna be right now
I'm gonna make some magic

That's what I said
I can be anything like a chameleon
I'm one in a million
It's gonna be dramatic

Hey that's what I said
That's what I said
That's what I said
That's what I said

Okay here we go

From the east to the west in your area
Everywhere I go Iâ€™m causing hysteria
Let's raise the roof so righ
We getariel Iâ€™m so fly y'all carry her

No breaks or intermission
I've got your full attention
This moment is something
That you won't forget
I know you won't because

I'm saying that I'm something
You gotta see right now
It's the only place you gon'
Wanna be right now
I'm gonna make some magic

That's what I said
I can be anything like a chameleon
I'm one in a million
It's gonna be dramatic

Hey that's what I said
That's what I said
That's what I said
That's what I said
That's what I said

See a party ain't a party
Without me the element
And anybody who's
Anybody be yelling it

And when they can't
Even scream they be
Spelling it
Then I be getting it
Hot there's no comparison

Oh so gather 'round
Gather 'round now
'Cause I'm about to
Break it down for
You down now

There's too much

Room to be
Standing around
We all be shaking the building
Feet stamping the ground uh

I'm saying that I'm something
You gotta see right now
It's the only place you gon'
Wanna be right now
I'm gonna make some magic

That's what I said
I can be anything like a chameleon
I'm one in a million
It's gonna be dramatic

Hey that's what I said
That's what I said
Hey that's what I said
That's what I said
Hey that's what I said
