Alive

Disbelief

live in my world
full of no hope
my joy is gone
and I'm on the runthe drug has taken me in this world
I don't wanna be
I want to run - I want to hide
is that my destiny ?my life is lost
I want to scream - you know waht I mean
but no one, nobody !
understand this tragedy, tragedyI do not know
what's going on tomorrow
life goes on
and every day counts
alive, aliveI don't realize
is it true, what happens with me
is there someone to help me
who can tell me, what's going on with me
what's going on with meI do not know
what's going on tomorrow
life goes on
and every day counts
