

# Travel Is Dangerous

## Mogwai

Who might know of this  
The notes we left  
Our final thoughts  
And we knew they'd get us out  
Sing  
SingDrowned by her country  
Old and she is cursed  
And forgotten  
Never surface again  
The air runs out  
The captain is first  
So we take to memories  
And layers of clothes  
Up there the family waits  
And outside we heard hammers  
Noises sound like the end  
And we will never see them  
Sing  
SingDrowned by her country  
Graved and she is cursed  
Old and rotten  
Never surface again
