Dreaming Without You

Dann Russo

Dreaming Without YouThe hopeful possibilities
Have come and gone away
We've both run out of reasons to stay
Who we are and who we thought we were has somehow changed
We kept trying anywayIt's just not gonna work
It's just not gonna fly
We've been frozen on the edge
Staring at good-bye
We've both reached for the stars
Shared the victories, shared the scars
Made each other's dreams come true
I never thought I'd do
My dreaming without youYou'll go one way, I'll go mine
And take some awkward steps
Almost free except for these regrets
Moving one's the only thing that we have left to do
No one can say we didn't see this through
But...Repeat ChorusI'm gonna miss you
I'm gonna miss youWe've both reached for the stars
Shared the victories, shared the scars
Made each other's dreams come true
I never thought I'd do
My dreaming without you
