

# Sketches of Pain

## Audible Mainframe

Daylight saved, daylight saved  
To spite the dark  
In spite of the darkness  
There I'll crave, there I'll crave  
To get to the heart  
In spite of the darkness  
Great wide stretches of canvas  
Signed by a godless name  
Strange bright colors of madness  
Only a fool would frame  
Sketches of pain, sketches of pain, sketches of pain  
Some cry shame, some cry shame

We tore them apart, we failed to imagine  
God might claim, God might claim  
The works of art, we failed to imagine  
Great wide stretches of canvas  
Signed by a godless name  
Strange bright colors of madness  
Only a fool would frame  
Sketches of pain, sketches of pain, sketches of pain  
Sketches of pain  
Sketches of pain  
Sketches of pain
