

Into The Deep (unreleased John Leckie version)

Kula Shaker

Into the deep
the long forgotten sleep
You can feel that your eyes are shut closely now
Where do you know
there's no-one that can know
As you lie you can try to be happy now
Fly brother fly
may you feel love tonight
Fly brother fly
well I hope you meet your maker
Enter your heart
and never let it part
Yesterday was a lie so be happy now
When all you can feel is what you take as real
Come alive
realize it's a feeling
Fly brother fly
may you feel your love tonight
Fly brother fly well
I hope you meet your maker
I know
the time has come to let you go
Time to sleep
to sleep
