No Spoken Word

Stevie Nicks

I was just that old That August dark, dark day Swear that you never saw her face Swear that you never heard her say No spoken word No small command What was it she wanted? They say she had everything No spoken word No small command What was it she wanted? They say she had everything What shall I do? What shall I say? Should I say, oh, all the things That I'd like to say to you? No spoken word No small command What was it she wanted? They say she had everything Let's make a deal here Ooh, for one night Well baby, you fill the night with the Wind and the rain and the water Oh, for one night Well, just for one night You know that Well, that disastrous sound Now it will make me wiser He says, and it will make you look She says, look out I don't know how to learn From the pages of a book Well, I either say too much Or I, I don't say enough Well, I play too hard Still I'm not tough enough What was it she wanted? They say she had everything

No spoken word, oh No small command What was it she wanted? They said she had everything Ooh, come around tonight, indecent Well, ah, ha come around Tonight, indecent baby, well You fill the room with the rain and the wind and the water If you tell me One more time Oh baby, take it easy Well, you won't see me ever again Some people walk down that darkened street With the faith of a child And so go the faithless But after awhile, she says No spoken word Let's make a deal here No small command What was it she wanted? They said she had Ooh, I don't want to know about it
