

# Sherry Fraser

## Marcy Playground

Ooo, I saw stars falling all around her head  
Red, gold, and blue  
Sherry Fraser, where are you?  
'Cause I saw stars falling all around your head  
When we were young Sherry Fraser, where have you gone?  
We're all wondering  
When will you come back  
And play some day, Sherry, yeah The mad hatter he waited for Alice  
To come to tea again  
He waits forever for his old lover And always wonderin'  
Will I see stars falling all around your head  
When you return Sherry Fraser, what have you learned?  
And we're all wondering  
When will you come back  
And play some day And please do come back  
And play some day  
Please do come back  
And play some day, Sherry, yeah
