Until We Rise Again

Edguy

2080 - Our world is an empty domain
Emotions have died
Men bleeding oil are the heroes for children todayDrinking the blood of the weak dictators bring pain
But they show us a smile
Feelings and love are kept hidden in a madhouse caveIs't a mad revolution
And the spirits will die
Oh escape the confusion
Take my handNow take my hand
Take me now
Take my hand
We won't be so free
Until we rise again
