Stay With You Tonight

This Beautiful Republic

A song is hidden in the wind, written for you
Filter the noise and have a listen, a moment or two
You'll find the strength in you
To fade the scars, the black and blue and stand tallGo and I will be your guide
Know if you fall I'm by your side
You breathe so you know that it's alright
You walk with your hand holding to Mine
Hope will stay with you tonightAre you buried in the darkness, the shadow of the doubt?
Lost track of time indulging yourself, I'll be your way out
I'll never let you down
We'll fade the scars, repair the heart and stand tallGo and I will be your guide
Know if you fall I'm by your side
You breathe so you know that it's alright
You walk with your hand holding to Mine
Hope will stay with you tonight, tonightMy love, I have got a plan, waiting in the wings
My child, the healing will begin underneath My wingsCome with Me, come with Me, I can save you now
Come with Me, come with Me
Come with Me, come with Me, you're all I've got
Come with Me, come with Me(Go)
And I will be your guide
(Know)
If you fall I'm by your side
(Oh)
Give your hand and hold me tight
(Hope)
And hope will stay with you tonightGo and I will be your guide
Know if you fall I'm by your side
You breathe so you know that it's alright
You walk with your hand holding to Mine
Hope will stay with you tonight
