

# **Buried Again**

## **Dreadful Shadows**

I can't drive my thoughts away  
The depths of heaven haunt me  
And I see no excuse for my mistakesI'll never see the sun again  
The clouds will darken everything inside  
No way to get me out of this or to returnThe wind will blow my face away  
No love will last, just endless calm  
Tomorrow is the strangest word for meSoon I'll be forgotten  
I'm drifting weightlessly in time, all alone  
I was suffocated by your kiss, I'm buried again
