You Don't Know Me

Son Lux

You see my face in the stars
You don't know me
You write my name on your walls
But you don't know me
I feel you tracing my scars
But you don't know me
You don't know me at all
I see you down on your knees
But you don't own me
You don't know me at allYou drank your wine from my heart
You don't know me, you don't know me at all
I see you down on your knees
You don't, you don't, you don't know me at allYou see my face in the stars
You write my name on your walls
I feel you tracing my scars
I see you down on your knees
You don't know me at all
You don't know me at all
You don't know me at all
