Ballet School

Into the night, I long
Drunk on desire and hope
Here in the still, ???
I've found somewhere to call It's the one thing
You've been missing If you need love
Open your heart
I give you all I got
And if you need me
Close your eyes
I let you touch your dream
We can do anything
Eternal ???
Give me one night
With you-ou-ou-ou... I wanna go slow
You made me wait so long
It feels like I'm breathing your mind and your body
Just want me too
No need to ??? And I don't make rules, no
Rules are for bored children
That ??? the real things like me and you If you need love
Open your heart
I give you all I got
And if you need me
Close your eyes
I let you touch your dreams
And I'm doing anything
Eternal ???
Give me one night
With you-ou-ou-ou...
