I'm A Fool

Etta James

Oh, oh, yes
Oh, oh, yesI'm a fool to love you, I'm a fool to care
But I know some, someday baby
You will be a fool just like me, just like meI'm a fool to cry my heart out over someone like you
But I know some, someday baby
You will be a fool just like me, just like meI'm a fool to want you when you hate me all the time
I'm a fool to let you get under my skin
But I can't get you out of my mindI'm a fool to need you when I know you don't care
But I know some, someday baby
You will be a fool just like me, just like meBut I can't get you out of my mindI'm a fool to need you when I know you don't care
But I know some, someday baby
You will be a fool just like me, [Incomprehensible] just like me
Just like me, don't you know just like me, just like me
