

# Adam vs. Eve

## Epic Rap Battles Of History

[Verse 1: Eve]

This battle's gonna end like every argument does  
With you kissing my ass and begging me for a rub  
I made a map motherfucker and im reading it too  
Gives me specific directions how to fuck with you  
I know that you like to think you're so macho  
But you smell like ballsacks and nachos  
I work. While you and your boyfriend Steve  
Drink and play sports in a Fantasy League  
You're as sharp as a stick, that I rub on my lips  
So go ahead take a shot, I'm sure that you'll miss  
Like the laundry, the toilet, the grocery list

If you'd stop fucking up I wouldn't have to get pissed[Verse 2: Adam]

My life was fine 'till you had to come along and wreck it  
Could you please just shut your face for ten seconds?  
You cry about everything, but can't decide what you want  
"I'm hungry", "I'm fat", "I'm cold", "I'm hot"  
You call it complex, but yo I'd call you a mess  
You take two hours to cum, three more to get dressed!  
You got a lotion for this? Got a cream for that?  
Got any perfume that smells like get the fuck off my back?  
When things are good they're great, and it's like I'm dreamin'  
Until your junk starts bleedin' and you turn to a demon  
It ain't summer Eve, don't try to play me like a douche  
You wanna bite on my fruit well you can swallow the truth![Verse 3: Eve]

Don't. even. bring up swallow

The first man on Earth ain't a tough act to follow  
One pump chump and you're hung like a weasel  
Ditch the fig leaf, get yourself a pine needle  
You want alone time? Have it! In fact  
Suck your own dick, and shave your own back  
That apple's the best thing I bit so far

Now I see how much of a dick you are[Verse 4: Adam]

I wasn't listening, are you still flapping those lips?  
I was just thinking, yo did I give up a rib for this?  
Woman, I just don't know what your problem is  
All I know is you're acting like a colossal bitch![Both: shocked silence]Adam:

I'm sorryEve:

...I'm sorry, tooAdam:

Alright, nice!Eve:  
Don't even think about it!Adam:  
Okay, that's fine, we can eat
